SELİM KAVAKLIÇEŞME

Soma, Manisa, Turkey selimkavaklicesme@gmail.com +905516021021 linkedin.com/in/selimkavaklicesme selimkavaklicesme.com

SUMMARY

Junior backend developer building production REST APIs with NestJS, Node.js, PostgreSQL and Redis. Experienced in JWT/2FA authentication, Docker deployments and CI/CD, with full-stack exposure through React and Next.js.

EXPERIENCE

Fullstack Web Developer

Freelance **December 2025 - Present**

- Developing corporate web solutions and mini ERP systems for small and medium-sized businesses.

Intern

Ege Linyitleri İşletmesi Müdürlüğü **December 2025 - December 2025, Soma/Manisa**

- Developed KelimoApp, a fullstack language learning application (spaced repetition, 4 mini-games, vertical scrolling interface)
- Backend: NestJS, PostgreSQL, Prisma, JWT/Google OAuth, Cloudinary
- Frontend: React, TypeScript, Tailwind CSS
- Mobile: React Native
- Set up a containerized development environment with Docker Compose

Intern

Polyak Eynez **August 2024 - September 2024, Kınık/İzmir**

- Developed a Python automation system that sends daily/weekly reports via email
- Data processing with pandas, MSSQL database integration with pyodbc

PROJECT

RenEl Enerji - Fullstack Corporate Website

Freelance · www.renelenerji.com

- Developed a corporate website, admin panel and NestJS REST API for a solar energy (GES) company
- React SPA with prerender for SEO (JSON-LD, dynamic sitemap); AI chatbot (Groq LLM) with multi-key rotation that qualifies leads and tracks the conversion funnel
- JWT + TOTP 2FA admin auth, Redis-backed login rate limiting, encrypted 2FA secrets, hardened media uploads; Instagram Graph API import for projects
- CI/CD with GitHub Actions; Docker Compose + Nginx deploy to VPS; unit and e2e tests (Jest, Supertest); self-hosted Umami analytics
- Technologies: React 19, Vite, Tailwind CSS, NestJS 11, TypeORM, PostgreSQL, Redis, Docker, Nginx

New Temizlik - Fullstack Corporate Website

Freelance · www.newtemizlik.com

- Developed a corporate website, admin panel and REST API for a solar panel (GES) cleaning company
- SSR/ISR Next.js site with SEO (JSON-LD, dynamic sitemap); AI chatbot (Groq LLM) that qualifies leads
- JWT + TOTP 2FA admin panel, Redis token blacklist, rate limiting, hardened image uploads
- CI/CD with GitHub Actions; Docker Compose + Nginx deploy to VPS; self-hosted Umami analytics
- Technologies: Next.js 16, React 19, NestJS, TypeORM, PostgreSQL, Redis, Tailwind CSS, Docker, Nginx

EDUCATION

Associate's Degree in Computer Programming

Atatürk Üniversitesi · Erzurum, Türkiye · 2025 · 3.02/4

SKILLS

Backend: Node.js, NestJS, Express.js, REST API, JWT Authentication, Socket.IO, TypeORM, Prisma

Databases: PostgreSQL, Redis, SQLite, MSSQL, MongoDB

DevOps & Tools: Docker, Docker Compose, Nginx, GitHub Actions (CI/CD), Git, Linux

Testing: Jest, Supertest

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML5, CSS3

Languages: Turkish (native), English (B1)
